BOARDTAC SOLUTIONS
EXPERIENCE YOU CAN TRUST

Biometric school attendance system with automatic sms alerts to parents in Kenya. Boardtac biometric school attendance system is designed in a way that when the students clocks in the morning, a notification is sent to the parent's phone through SMS. The system also sends an SMS in the evening when the child is leaving the school.

Boardtac school time attendance system with SMS has the following functionalities:

- Biometric device placed at the door for the students and staff to access.

- Biometric software that can send SMS on real-time to parents and guardians when students report back from home and leaving the school.

- The reports can be viewed by management on how staff and students have been clocking and how SMS has been sent to parents/guardians as well.

- Proximity Card options for young Student. In managing student attendance, you can use or provide the option of Proximity Card for young students.

- Accurate Student Attendance. Daily Attendance Register, weekly, monthy attendance Register.
